Velammal Vidyalaya School (CBSE)	SSLC	84.69%	2020-2021

INTERNSHIP

PRODUCT DESIGN INTERN (UI/UX – FIGMA) 2025

Designed UI/UX for two products: Uyir Care (blood donation app) and Viveha (automobile retailer billing system), creating wireframes, high-fidelity UI screens, and user flows to improve usability and product experience. Worked on branding (logos, posters, promotional designs) and collaborated with teams in 3+ onsite client meetings, contributing as a UI/UX designer and product support in a startup environment.

PROJECTS

Sports Magazine Design – 2024 & 2025 | Canva 2024-2025

- A dynamic sports magazine designed across two editions (2024 – 155 pages, 2025 – 195 pages) featuring match highlights, athlete spotlights, match analyses, and in-depth sports coverage. Crafted with bold, modern, and visually engaging layouts, it delivers powerful storytelling that captures the energy, spirit, and evolution of sports across both editions in a single cohesive publication.

UYIRCARE - Blood Donation app (Ongoing) | Project Manager & UI/UX Designer | Figma 2025

- Leading product planning and designing the UI/UX for Uyir Care, an ongoing blood donation platform connecting donors and recipients across Tiruppur, Coimbatore, and Erode, with an initial rollout targeting 5,000+ users. Managed 3 onsite client meetings, driving requirement gathering, workflow planning, and usability improvements, with sponsorship support from Rotary International Tiruppur and Rotaract Club.

VIVEHA Billing & shop management app | Project Manager & UI/UX Designer | Figma 2026

- Led product planning and designed the complete end-to-end UI/UX for Viveha, a live retail billing and management application for automobile retailer shops, covering billing workflows, inventory management, and operational dashboards. Managed product execution and usability improvements while collaborating with the development team to deliver a functional Play Store release, with ongoing updates for enhanced features and APK optimization.

Nexvora Platform | UI/UX Designer | Figma 2026

- Designed the complete end-to-end UI/UX for Nexvora, an all-in-one business management platform integrating project management, HRMS, CRM, AI-powered communication, task tracking, and performance analytics dashboards. Collaborated on product strategy, workflow optimization, and scalable dashboard experiences, focusing on usability, operational efficiency, and modern enterprise-grade interface design.

SKILLS

Core UI/UX Skills - User Research, Wireframing, Prototyping, Interaction Design, User Flow Design, Information Architecture, Design Systems, Usability Testing, Visual Design, Responsive Design

Tools - Figma(Advance), Canva(Advance), Adobe Photoshop(Intermediate), Adobe Lightroom(Beginner)
